UKU (HEAD LICE) ALERT!

As we continue through the school year, students play and cluster together in close-knit groups. Unfortunately, head lice - commonly known as "ukus" in Hawai‘i – can be shared amongst peers and/or classmates.

What exactly are head lice?
Head lice are tiny, translucent, brown-or gray-colored mites. Because they are so small, about the size of a sesame seed, lice are hard to detect without a magnifying glass. They live in the hair close to the scalp, causing inflammation and itching. Adult females lay about six to 10 eggs a day, which cling to the hair and hatch in eight days, causing a child's head to become a breeding ground for the pesky bugs.

How are lice spread?
Lice don't fly or jump, but they can move very quickly. To get from one head to the next, the lice will grasp onto a strand of hair with its six hooked legs and ride over to the new host. Lice are spread most easily by direct person-to-person contact. This is often the case when children touch their heads together during play. Lice also can be spread indirectly, when kids share combs, brushes, pillows, or head gear of any kind, such as hats or bike helmets.

What is the most effective way to get rid of head lice?
If you determine that your child has head lice, ask your pediatrician for medical advice or stop by the school’s health room office for more information.

Prevention is critical in keeping kids free of head lice. Here are some simple rules to follow.

- Teach your child never to share their hairbrushes, combs, hats or other personal items with other children.
- Have your child take her own pillow to a sleepover party, and wash the pillowcase afterward.
- If your child has long hair, keep it tied back or braided during lice outbreaks at school or child care. You may even want to cut your child's hair to a shorter length to make lice removal easier.
- When washing or brushing your child's hair, make sure no lice or nits are present. Make this a part of your child's normal hair-grooming routine.

HERE ARE SOME TIPS FOR CHILD SAFETY DURING HALLOWEEN...

The Costume: Should be flame resistant & not too long, child could trip and fall.

Trick or Treating: Label loot bag. Never go trick or treating alone. Never enter a house of someone they don’t know. If porch light is not on, it means that no one is home so just move on. Never accept candies from strangers. Only walk on streets that are well lit. Before they cross, make sure that they look both ways and walk, never run. For added precaution, let your kids wear reflective tape or carry a flashlight so drivers will be able to see them when they are crossing the street. Stick to the main road. Your kids should also be given a few quarters or maybe a cellular phone. Who knows, they may need you to pick them up.

Check the Treats: Give specific instructions as to what time your children must return home. Examine all their goodies. Check if safe to eat. There have been instances in the past where candies handed out were tainted and some kids ended up in the hospital. If you don’t want your child to be a victim, examine each treat carefully. If everything checks out, give it back and let them enjoy it! Halloween is supposed to be fun especially for the kids since it is not everyday that they can go out, wear a costume and bring home a lot of goodies. As a parent, make sure that you have done everything possible to make them understand the dangers of going out at night so they will be able to come home safely.

PLEASE: Remember to limit intake of all sweets and remind them to brush there teeth! Have a fun and safe Halloween!
HALLOWEEN MATH

Halloween is a time for math fun as students explore pumpkins, spiders, and webs. And what do students do when they get home from trick-or-treating? Why, they sort and count their candy before eating it, of course! Try some of these fun activities at home.

Pumpkin Math…How many seeds?
1. Cut open a pumpkin. Have your child estimate how many seeds are in the pumpkin.
2. Count the pumpkin seeds.
3. Was your child’s estimate close to the actual number? How far off was the estimate?
4. Parents…If you like, wash, lightly salt, and roast the pumpkin seeds. Enjoy!

How much does a pumpkin weigh?
1. Have your child hold a pumpkin and guess how much it weighs.
2. Weigh the pumpkin. Was your child’s estimate close? What is the difference between the actual weight and your child’s prediction?

What is the measurement of a pumpkin’s waistline?
1. Estimate the circumference of a pumpkin at its widest point.
2. Measure the circumference with a tape measure. Was your child’s estimate close? What is the difference between the actual circumference and your child’s prediction?

Spiders…How many legs do spiders have?
1. Have your child create his/her own spider.
2. Ask your child how many legs spiders have.
3. Discuss how to figure out how many spider legs there are on 2 spiders, 3 spiders, etc.

Spider Webs…Measure the perimeter...
1. Have your child create his/her own spider web.
2. Estimate the perimeter of the spider web.
3. Measure the perimeter with a ruler. Was your child’s estimate close? What is the difference between the actual perimeter and your child’s prediction?

Candy!…How much candy did your child collect during trick-or-treating?
1. After trick-or-treating, have your child estimate how much candy he/she collected.
2. Sort and count your child’s Halloween candy.
3. Was your child’s estimate close to the actual number? How far off was the estimate?

THE ORIGINAL “FAST FOOD” & HEALTHY SNACKS From Mrs. Lum, Cafeteria Manager

Last month I talked about how starting the day with a healthy breakfast and having a healthy lunch can help your children become better learners. My staff and I are committed to serving healthy meals through the National School Lunch and Breakfast Program. This month with the fall intersession and a favorite time of the year for kids, Halloween, coming up I would like to share some healthy snack ideas.

The Original Fast Food. When you hear the phrase “fast food,” what goes through your mind? Mc Donald’s, Burger King, stuff from 7-11? Basically anything that is quick, easy and cheap. Recently I saw the question, “Do you know what the original fast food is” and I thought…..Mc Donald’s? Well the answer is Fruits and Veggies. You may ask, “What’s so great about Fruits and Veggies?” Well…
1. They taste great;
2. They have carbohydrates which gives us energy and power to play;
3. They are low in fat, sugar and salt;
4. They are loaded with vitamins and minerals which help our bodies to work best;
5. They have fiber which helps us with digestion; and
6. No other snack food provides as much nutrition as a piece of fruit or a vegetable.

Research shows that 5 fruits and vegetables a day are the minimum requirement for good health. Here are some snack ideas that I have used with my own kids: Apple wedges, Frozen grapes, Frozen banana, Orange slices, Mango slices, Melon chunks, Pineapple chunks, Berries, Raisins, Baby carrots and celery with low fat ranch dressing, Celery sticks with peanut butter, or 100% fruit juice boxes.
A fun thing to do while grocery shopping is to take your child thru the produce department and have them pick up their snacks for the week. When you get home have them assist you in washing and preparing the items into bite sizes. Store them in the refrigerator or freezer for easy access.

I’d like to leave you with 5 alternatives to candy that you can pass out this Halloween: Pretzels, Apple or Orange, Stickers, Pencils, or Lightly salted popcorn.

Have a happy, healthy and safe October!

**BREAKFAST AND LUNCH LOANS**

In an effort to be in compliance with the Department of Education’s revised meal loan practice, Lincoln School will not make unlimited meal loans to students who do not have funds in the Meal Tracker accounts.

The maximum meal loan amount is as follows:

- For students eligible for free meals: No loan
- For students eligible for reduced price meals: $2.00 maximum
- For students who pay the regular student price for meals: $11.25 maximum
If there are no funds in your child’s *Meal Tracker* account and the meal loan maximum has been reached, you should provide your child with breakfast at home and send your child to school with a home lunch.

The school’s guidelines are reflected in the parent handbook regarding recommended deposits and loan balances. Please review the recommended School Meal Prices for the Month chart.

**Any parent having difficulty paying a loan should have their child eat breakfast at home and send her/his child to school with home lunch until the loan can be paid in full.**

**NEGATIVE MEAL TRACKER BALANCE STATEMENTS**

Parents/Guardians should be aware that Negative & Low Balance Meal Time Statements are sent home with their child every Tuesdays & Thursdays. If your child continues to have a negative balance in his/her *Meal Tracker* Account, Lincoln School’s Office will notify you immediately. Please settle your child’s loan by the next school day to avoid administrative action. Your cooperation in this matter is truly appreciated!

**MEAL TRACKER DEPOSITS:**

Parents or students may make deposits into their *Meal Tracker* accounts via cash or check (payable to Lincoln School) by dropping off payments in the *Meal Tracker* Deposit Box at the office between 7:30 a.m. - 4:00 p.m. daily. Payment envelopes and deposit slips are available on the office counter.

Parents who submit a bounced check will be charged a $25.00 fee. Once the fee and the amount of the bounced check are paid in full, the office will then accept checks from those parents. However, the office will only accept cash from those parents as long as the fee and the amount of bounced check are unpaid.

Parents who send their children to school with deposits should direct them to the office. They should not give their payments to their homeroom teachers, because the teachers will not be responsible for making their students’ deposits.

Upon receipt, deposits will be processed and the money will be available for use by your child 24 hours after the deposit date. Cash is not accepted on the line in the cafeteria during breakfast and lunch service.

Please refer to the Parent/Family Handbook in your child’s Communication Folder for more information.

**CROSSING GUARD NEEDED!**

Lincoln School has no crossing guard at this time. We ask all parents to review traffic safety rules and laws with their children. Please make sure that your children are supervised adequately if they walk to and/or from school. If you or anyone you know is interested in applying to be Lincoln’s crossing guard, contact HPD’s Career Center – 723-7788.

The salary is $10.55 per hour (maximum of 2 hours/day). The hours are as follows:

7:15-8:15 a.m. and 2:15-3:15 p.m.  Mondays, Tuesdays, Thursdays & Fridays
